WBSC plans to distribute Mini Baseball Softball starter kits and instruction manuals to schools, sports ministries and other relevant bodies worldwide.

"This new WBSC Mini Baseball Softball global initiative aligns with the vision to reach one billion players and fans over the next decade, taking smaller versions of the game to schools, to the streets, urban areas and other novel places. In order to help make the sport accessible to everybody across the world," said WBSC President Riccardo Fracalossi. "Our aggressive campaign and growth strategy will ensure and further position baseball and softball among the leaders in the youth sports space, while boosting our credentials to earn a place on the Olympic programme over the long-term, following baseball and softball's upcoming return at the Olympic Games Tokyo 2020."

WBSC is the only international sports federation that stages World Cups as young as the Under-12 and Under-15 age categories.

WBSC recently presented Mini Baseball Softball, including a new promotional video, to media, government officials and sports officials in Beijing.

The first phase of the Mini Baseball Softball initiative will target China, Hong Kong, Macao and Taiwan through the collaboration of the Baseball Federation of Asia (BFA) and Chinese Taipei Baseball Association (CTBA), alongside partners YY Sports, China's the Baseball Federation of Asia (BFA) and Chinese Taipei Baseball Association (CTBA).
